

## *It Won't Be Long: Our Lives as POWs in Korea*

-a Charley Trujillo film-

Thank you for considering funding this important film that gives a voice to warriors who are deeply forgotten – often by design. As we lose their generation, a part of the Chicano experience as it relates to the Korean Conflict is in danger of being erased forever.

Your contribution of any amount is deeply appreciated. Consider a \$10.00 donation and spread the word. This is certainly a grassroots effort. Getting the film ready for television and theatrical release is a \$75,000.00 investment into the preservation of Chicano history.

We also have three title cards available for foundations or individuals able to fund at the \$10,000.00 or higher level. Please contact the filmmakers for specifics.

Your donations can reach us in the following ways:
